PRODUCT SUMMARY

- Purpose made aluminium welded roof vent 6.4mm-29mm glazing.
- An aluminium roof vent that will fit any size rafter or glazing bar and any thickness of glass or polycarbonate up to 26mm in lid.
- Supplied in white or brown powder coat finish (or mill) as standard.
- This vent can be powder coated to any BS or RAL colour.
- Tailpiece option replaces the need for glass above the vent so lead flashing can be brought down straight on to the tailpiece.

GLAZING SIZE CALCULATIONS

Glass Below Calculation

- To calculate the length 'C': deduct 'A' (Vent length + any size tail) from 'B' (total panel length).

Glass Above & Below Calculation

- To establish the length 'C': deduct 'D' (panel above vent) and 'A' (vent length) from 'B' (total panel length).

Internal Lid Glass Size Calculation

- To calculate the size of the glass for the vent lid, deduct 155mm from the width and 165mm from the length not including any tailpiece.
