

ventec SERIES
2000-CP
SMOKE CONTROL SYSTEM

**Smoke Ventilation
System for Car Parks**

ventec SERIES
2000-CP

Introduction

**The Ventec 2000-CP Car Park
Smoke Ventilation System,
with intuitive HMI touchscreen.**

ventec SERIES 2000-CP

Smoke

The Ventec 2000-CP uses impulse and extract fans to rapidly clear smoke.

- Improves firefighter visibility
- Protection of property

ventec SERIES
2000-CP

Mono Assist

**Introducing, fresh air and
exhausting pollutants.**

- Reduced energy running costs
- Reduced contaminated run-off

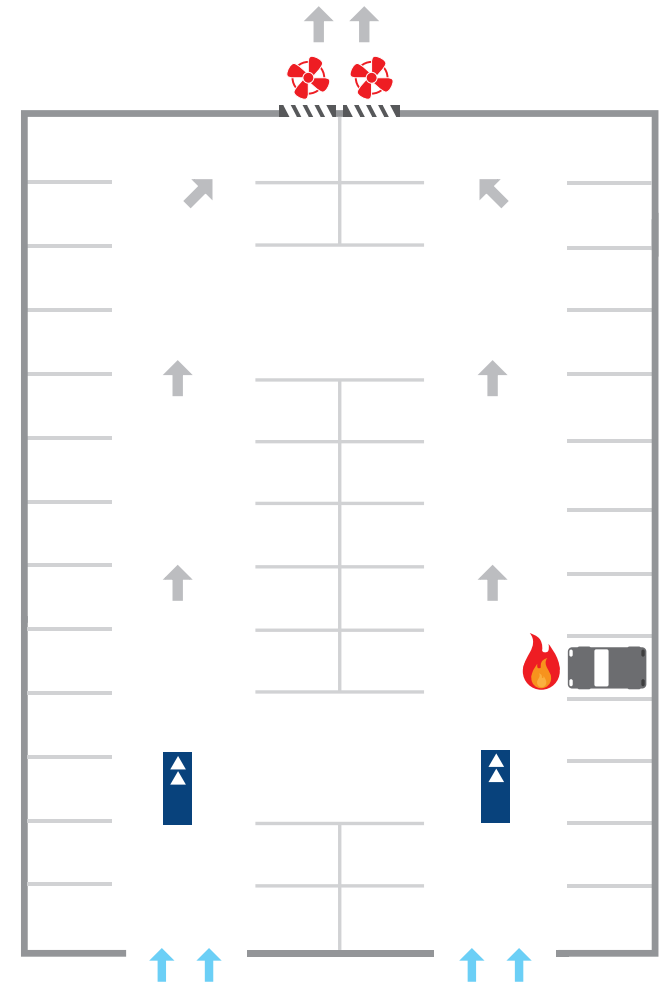

**ventec SERIES
2000-CP**

Applications

**Our systems are designed
for use in multi-storey and
single zone car parks.**

- High performance impulse systems
- Low profile fans for max. headroom

**ventec SERIES
2000-CP**

Support

On site training and ongoing support including scheduled maintenance plans.

- Industry leading fans & components
- Reduced ductwork requirements over traditional systems

ventec SERIES
2000-CP

Compliance

Designed in accordance with:

- Approved Documents B & F
- BS 7346-7 (Section 9)
- Smoke Control Association guidance

Computational Fluid Dynamics (CFD)

- Smoke ventilation
- Fume ventilation (Mono Assist)

4,700+
